

Abdallah Abdelhafeez Saber

Data Analyst

Fayoum, Egypt | 01150170744 | abdallahabdelhafeez2004@gmail.com |

[linkedin.com/in/abdallah-abdelhafeez-197404374/](https://www.linkedin.com/in/abdallah-abdelhafeez-197404374/) | github.com/Abdallah-Abdelhafeez-04 | abdallah-abdelhafeez-04.github.io/abdallah-abdelhafeez-04-abdallah-portfolio-website/

Objective :

Results-driven Data Analyst with hands-on experience in data analysis, data cleaning, data preprocessing, exploratory data analysis (EDA), data visualization, statistical analysis, business intelligence (BI), and data storytelling. Proficient in Python, SQL, Excel, Power BI, Pandas, NumPy, Matplotlib, Seaborn, DAX, Power Query, and Tableau, with experience in predictive modeling, forecasting, machine learning, customer segmentation, KPI development, dashboard creation, and reporting.

Education :

Bachelor of Information Technology and Computer Science

Sinai University (Qantara Branch) (2022 – 2026)

Grade _ GPA : 3.553 (Very Good)

Certifications & Courses :

- **Data science & Data analytics : HP life** [Validate](#) (MAR 2025 – Apr 2025)
 - Learned data analysis workflow from data collection to visualization.
 - Developed skills in identifying trends, patterns, and insights for decision-making.
- **Data Analysis using Excel : Coursera** [Validate](#) (Jun 2025 – JUL 2025)
 - Applied Excel functions, pivot tables, and charts for analyzing datasets.
 - Built interactive dashboards to summarize and present key metrics.
- **Python for programming: Mahara Tech – ITI** [Validate](#) (JUN 2025 – JUL 2025)
 - Gained proficiency in Python syntax, data structures, and functions.
 - Developed scripts for data manipulation, automation, and analysis.
- **IBM Python for Data Science: Cognitive Class** [Validate](#) (AUG 2025 –SEP 2025)
 - Completed a professional certification covering Python fundamentals, data structures, data analysis, and visualization.
 - Gained hands-on experience with Jupyter, NumPy, and Pandas for data manipulation and real-world data analysis.

- **Introduction to R language : DataCamp** [Validate](#) (JUL 2026 – JUL 2026)
 - Completed a professional course covering the fundamentals of R programming and basic data analysis concepts.
 - Gained practical experience using R for data manipulation, analysis, and working with data-driven tasks.
- **Intermediate SQL : Datacamp** [Validate](#) (SEP 2025 – SEP 2025)
 - Completed a professional course covering intermediate SQL concepts and techniques for working with relational data.
 - Gained practical experience using SQL to query, filter, analyze, and manipulate data for real-world data analysis tasks.

Internship Experience :

- **Data Analyst Intern – DEPI** [Validate](#) (JUN 2025 – DEC 2025)
 - Assisted in data collection, cleaning, and transformation
 - Built visualizations and dashboards using Power BI
 - Contributed to analyzing data trends and generating reports for decision-making
 - In addition, I completed comprehensive professional development training covering like Freelancing , remote work skills and Career planning, goal setting, Personal branding LinkedIn optimization, Presentation skills, and CV and interview preparation
- **Freelance Training Program Graduate working during that training as data analyst and data entry specialist – Itida Gigs** [Validate](#) (JAN 2025 – APR 2025)
 - Gained hands-on work experience and acquiring freelance skills .
 - Made real mini projects like data entry for real customers working as data analyst on some freelancing platforms .

Projects :

- **E-commerce Dataset Analysis**
 - **Description:** Analyzed E-Commerce customer data to identify customer behavior, purchasing patterns, spending trends, and customer segments. Performed data cleaning, exploratory analysis, forecasting using Python, and developed visualizations to generate actionable business insights.
 - **Tools:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL, Power BI
 - **Link:** github.com/Abdallah-Abdelhafeez-04/DEPI_Graduation_Project_E-CommerceDataset

- **Sales Database Management**
 - **Description:** Designed a SalesDB relational database for customers, products, orders, and sales, applying SQL, data cleaning, data validation, data quality, querying, and query optimization.
 - **Tools:** Microsoft SQL Server (SSMS)
 - **Link:** github.com/Abdallah-Abdelhafeez-04/Analyzing-Sales-database-using-SQL-.git
- **HR Employee Attrition Dashboard**
 - **Description:** Designed and developed an interactive HR Analytics Dashboard to analyze employee attrition, demographics, job roles, satisfaction, compensation, and key HR KPIs, supporting data-driven retention strategies.
 - **Tools:** Power BI, Power Query, DAX
 - **Link:** <https://github.com/Abdallah-Abdelhafeez-04/HR-Employee-Attrition-Dashboard>
- **Customer Churn Prediction**
 - **Description:** Developed a machine learning model to predict customer churn using telecom customer data. Performed data preprocessing, exploratory data analysis, feature scaling, and trained multiple classification models to identify at-risk customers and support retention strategies.
 - **Tools:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Jupyter Notebook
 - **Link:** <https://github.com/Abdallah-Abdelhafeez-04/Customer-ChurnPredictionCodeveda-Third-Task-Predictive-Modeling>

Technical Skills:

- **Data Analysis & Visualization:** Excel, Power BI, Python, Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization
- **Databases & Querying:** SQL, Data Manipulation, Data Extraction, Data Aggregation
- **Data Processing:** Data Preprocessing, Data Wrangling, Statistical Analysis, Feature Engineering
- **Programming:** Python, C++, Java, PHP, HTML, CSS, JavaScript
- **Tools & Platforms:** Jupyter Notebook, Google Colab, Git, GitHub

Soft Skills:

- Teamwork and Collaboration
- Communication and Presentation
- Critical Thinking and Problem Solving
- Analytical Thinking and Attention to Detail

Languages :

- Arabic: Native
- English: Upper-Intermediate
- French: A1: Beginner
